
Demonstrate phonics strategies to use with students with learning disabilities.
Unit 1
Unit 2
Unit 3
Define Phonics Instruction
Learning disabilities and the difficulty in reading
Strategies and Resources
Learners will identify the meaning and components of phonics.
Learners will be able to describe why children with disabilities struggle with reading.
Participants will utilize strategies to help their students in the classroom.
What is phonics? Why is it important in the learning process?
What are the common problems students with learning disabilities experience in reading?
How can we implement these strategies into the classroom?
Entry Level Skills
Read Actively and respond to literature
Familiarity with writing goals and reflections
Familiarity with case studies
Experience writing lesson plans
