Part Four of Four

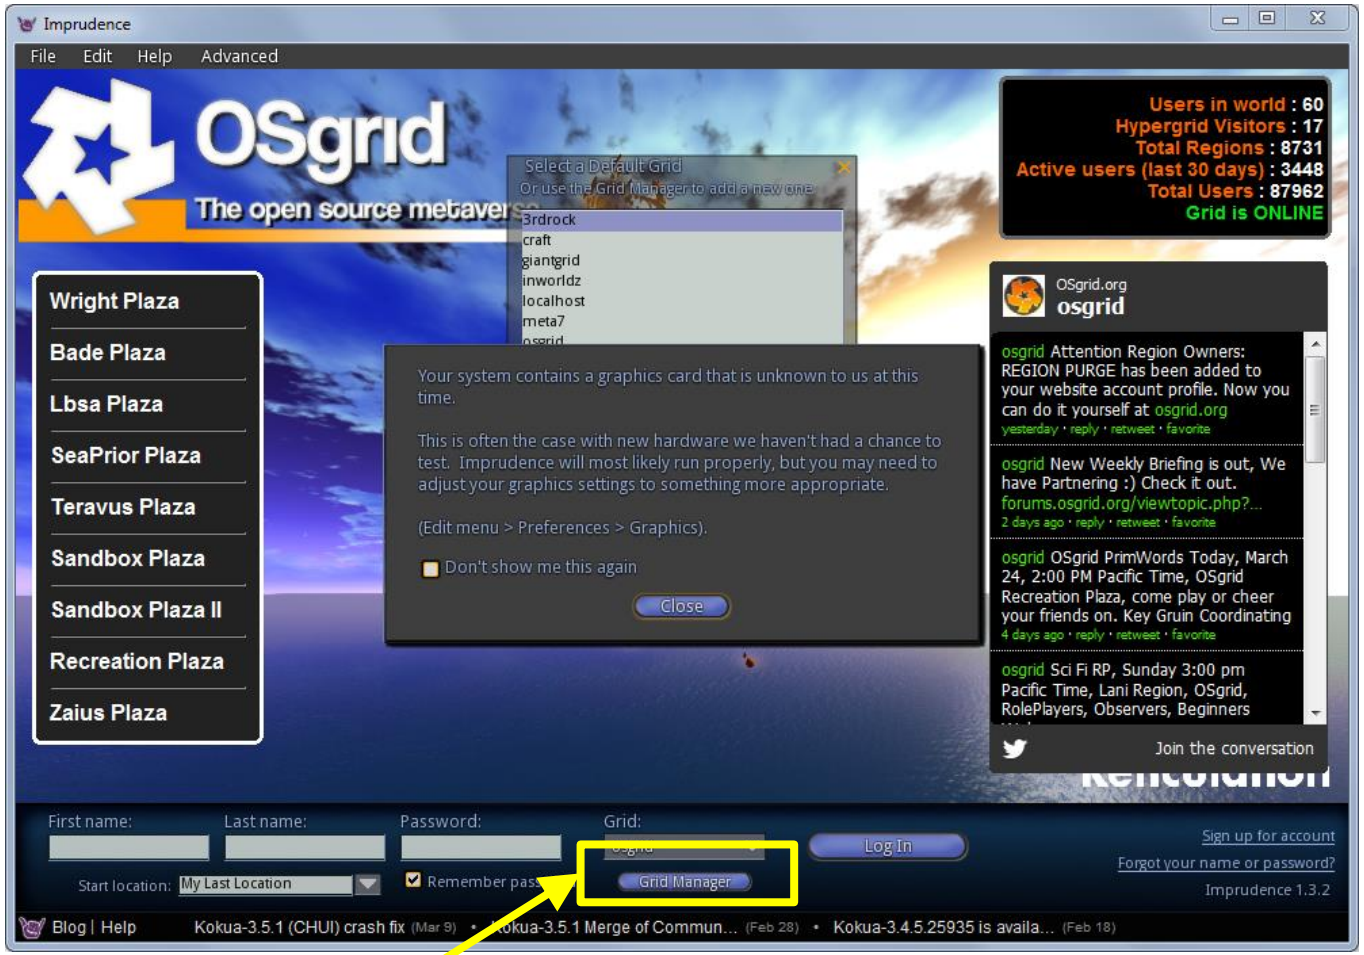

Logging in the first time

Step One - The first time you open Imprudence - errors

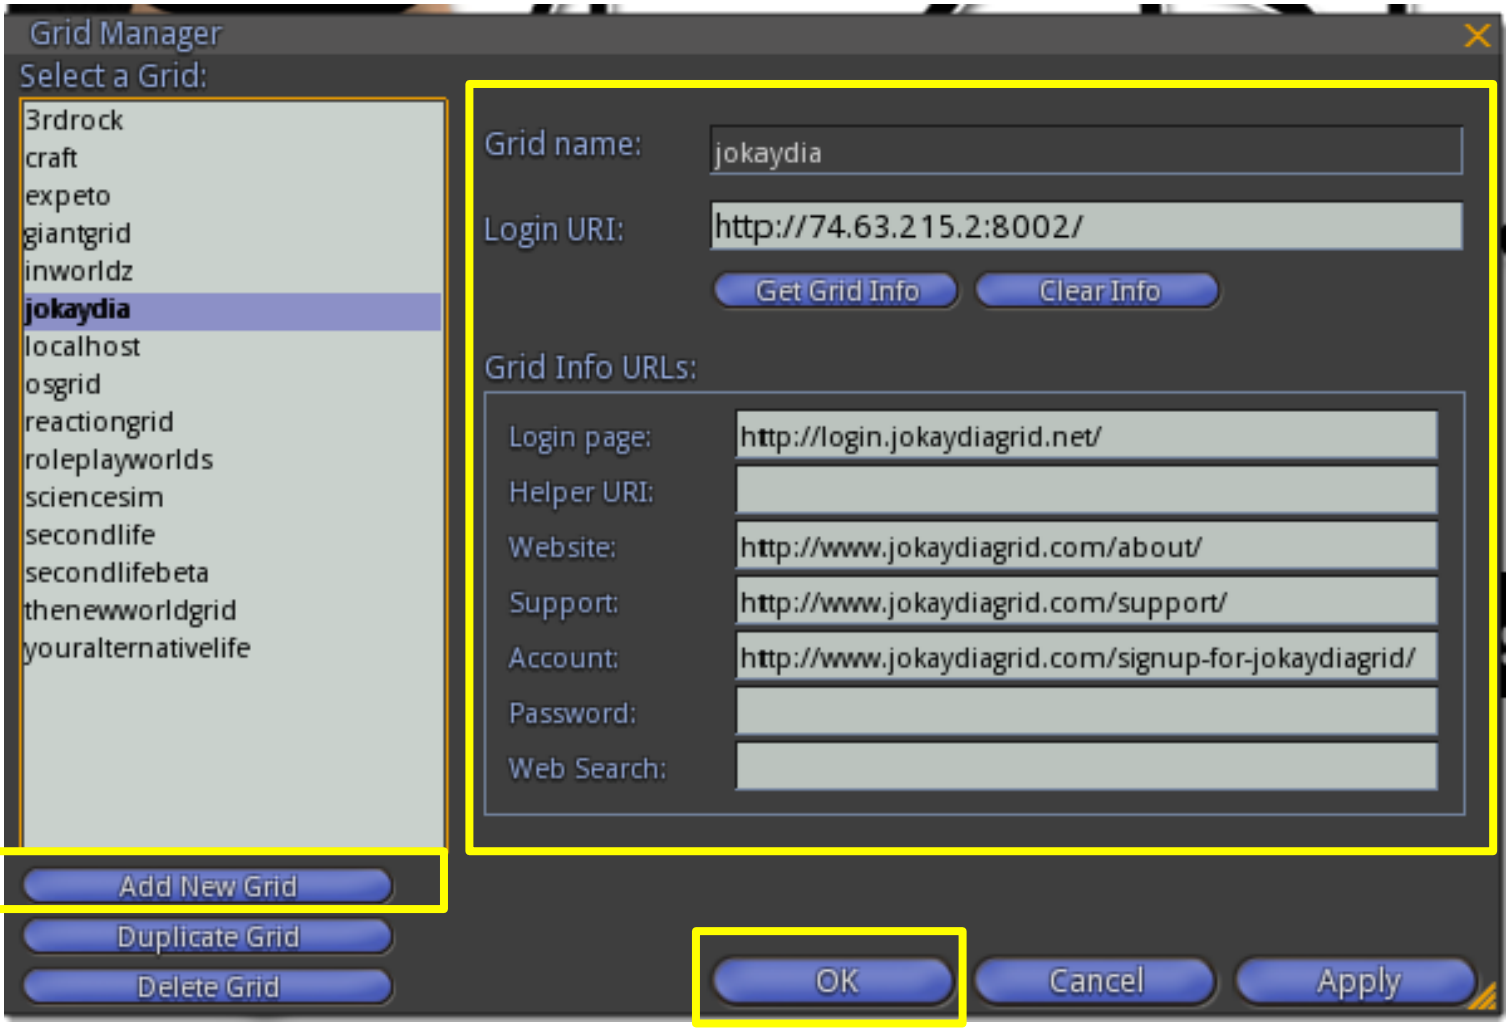

Check "don't show again" and close if you get a graphics error. Click close 8 times if you get a day cycle error (click here later to fix this)

Step Two - Open Grid Manager

To set the configuration for Jokaydiagrid

Step Three - Choose or add Jokaydiagrid click for copyable text

If Jokaydia is not in list click Add New Grid, enter the above information, click OK.

Step Four - Log in.

This Top portion of the log in screen may be black.
That's ok.

Enter your user name and password and click Login.

Arrival - You made it!

If you are feeling brave head toward the Avatar Store and look around.

Explore or quit and contact me to set up your orientation.

Day cycle error fix

Quit the Imprudence Viewer

Right click (cmd click) on the App icon and select “Show package content”.

Open the folder Contents/Resources/app_settings/windlight/skies

Rename these 8 essential files in this way (you are replacing %2D with -)

A%2D3AM.xml becomes A-3AM.xml

A%2D3PM.xml becomes A-3PM.xml

A%2D6AM.xml becomes A-6AM.xml

A%2D6PM.xml becomes A-6PM.xml

A%2D9AM.xml becomes A-9AM.xml

A%2D9PM.xml becomes A-9PM.xml

A%2D12AM.xml becomes A-12AM.xml

A%2D12PM.xml becomes A-12PM.xml
