Web 2.0 Quiz Answer Key

Question 1:

Which of the following is an advantage of Web 2.0 according to "To use or not to use web 2.0 in higher education?" by Gabriela Grosseck?

Gabriela Grosseck identifies reduction of costs, creating digital content, and sharing accumulated experiences as advantages of Web 2.0. Therefore the answer to question one was All of the Above.

Question 2:

According to Peter Duffy, what is Web 2.0?

After stating that "Web 2.0" was a phrase coined by O'Reilly Media, Duffy states that Web 2.0 is a "perceived second generation of web-based interactions, applications, and communities".

The correct choice was, a second generation of web based interactions, applications, and communities.

Question 3:

Name three types of Web 2.0 applications:

Using the reading "Engaging the YouTube Google-Eyed Generation: Strategies for Using Web 2.0 in Teaching and Learning" Duffy speaks about three main applications of Web 2.0

YouTube

Wikis

Blogs

There are hundreds of correct answers to this question, one of which is Survey Monkey, which was used to create all of the quizzes for this mini-course.

Question 4:

What are three possible educational benefits of using Web 2.0 tools in Education?

Using either of the readings, the educational benefits should have been quite clear.

The following answers are just several of many acceptable responses:

1) Web 2.0 will engage students to become more active during lessons.

2) Web 2.0 will provide a means of communication for students.

3) Web 2.0 has the ability to reduce educational costs by providing free web-based applications.

4) Web 2.0 allows students the ability to create their own technological works, which will further their personal investment in their education.

5) Web 2.0 allows students to collaborate with one another which will improve social skills and acceptance of classmates.
