Solving the Arab-Israeli Crisis

The Arab-Israeli Conflict continues today, at this moment, but its roots begin over 4000 years ago, when Abraham conceived of the monotheistic belief system of Judaism. It continued to grow throughout the years, with the birth of two other monotheistic belief systems in the Middle East, Christianity and Islam. As of today, countless numbers of individuals have fought and died over the Holy Land of Palestine. It is your responsibility to investigate the history of this tragic global crisis in order to solve it. Work hard, peace is in your hands.

Your Task is to use your graphic organizer in order to create, *at least*, a five paragraph paper about the Arab-Israeli Conflict and come up with a solution. You have seven days to complete this assignment.

DUE DATE: _____
