

Prerequisites for
Multiple Intelligences in
the Classroom Mini-
Course

- Experience as a classroom teacher
- A device to access the internet and capable of playing videos with sound
- Ability to navigate the internet and basic computer usage skills

Unit 1: What are multiple
intelligences and why are
they important?

- Unit 1 objective: Participants will list five reasons on why we use multiple intelligences in the classroom and throughout lessons
- Lesson 1 objective: Participants will identify the multiple intelligences.
- Lesson 2 objective: Participants will determine why multiple intelligences are important in the classroom and throughout lessons.

Unit 2: How do I use
multiple intelligences in
my lesson?

- Unit 2 objective: Participants will incorporate one or more intelligences into a lesson in their preferred subject area.
- Lesson 3 objective: Participants will determine the intelligences in their classrooms.
- Lesson 4 objective: Participants will identify activities that address multiple intelligences across subject areas.
- Lesson 5 objective: Participants will incorporate one or more multiple intelligences into a lesson.
