

Benefits of Storyboarding

The course is designed to promote the value of using free resources on the internet such as Storyboardthat. It is important for us as educators to not only engage our students but to teach to their learning by using 21st century skills and technologies that are being offered. Programs such as Storybird allow students to be creative while being an active participant in his/her learning. Designing technology based lessons such as this allows the students to share information that incorporates content, images, sounds, and design digitally.

Topic 1:

What are Storyboards?
and why are they useful
in the classroom?

Target Objectives:

Participants will be able to:

1. understand the value of using storyboards as an instructional tool
2. discuss the advantages and disadvantages of telling a story with storyboard that or another type of media with peers
