

Literacy Circles and Technology

Literacy Circles' Effects: The goals of this unit is to identify what a literature circle is and why it is used. Then also to study results and conclusions from those who are part of the Literature Circle Curriculum and how it has changed the methods of reading comprehension within students.

Implementing Literarcy Circles and Technology: The goals of this unit is to integrate what you learned about literacy circles in the first unit into your own classroom curriculum. Also, finding the correct technology that will promote motivation to read because of connection to society/technological growth which your students are drawn to.

What are Literature Circles: Basic introduction of what this tool is and how to use it. The Learners will read passages and watch videos and respond to each other through discussions to promote their own understanding of the task.

Results of using Literature Circles: Specific results generated from learners who have used this type of learning strategy in their classrooms and has been successful. Learners will read passages and watch videos and respond to each other through discussions to promote their own understanding of the results

Incorporatiing Literature Circles into Classroom Curriculum: Specific ways that this skill can be incorporated into your classroom. Learners will read passages and watch videos and respond to each other through discussions to promote their own understanding of how to set up a curriculum with Literacy Circles. Learners can then design the curriculum that works best for them.

Specific Technological influences that correlate with Literacy Circles: Finding ways to include technology into this learning strategy to support growth and connection with community and society outside of school that the students live in. Lerner will investigate different forms of technology that mesh well with this learning strategy and promotion of reading. Responding to each other's results and ideas through discussion

The overall concept of learning about Literacy circles. Becoming aware of what they are gaining knowledge, and experience from this information. Then implementing them to achieve specific tasks and goals
