Part B. Establishing a Baseline

List the baseline information to document the problem. The baseline information should be quantifiable so you can revisit and see your impact at the end of the project.

Examples:

- Currently, our school has 50 pounds of trash every day and no recycling.
- Currently, the incidence of children at the homeless shelter with a Vitamin D deficiency is 50%.
- Currently, 90% of students at our school think that bullying is a big problem.
- Currently, 2 senior citizens in the local independent living center know how to use e-mail.
